Local Municipality • Masepo wa sekhoe • Paelele Municipality

## 9. FINANCIAL OVERVIEW

### ORIGINAL BUDGET OVERVIEW

- The total projected annual operating revenue amounted to **R1.3 billion** and the operating expenditure amounted to **R1.8 billion**, which indicates a deficit of **R533 million** for the Parent Municipality. The total capital budget amounted **R230.3 million**.
- The total projected revenue and expenditure for the Entity was **R225 million**.
- The consolidated total projected annual operating revenue is **R1.5 billion** and the operating expenditure amounts to **R2.1 billion**.
- **Due to the mSCOA budget alignment the overall totals were changed from the original budget. The following major changes must be noted:**
  - The departmental levies amounting to **R8 million** are considered as secondary and therefore excluded from the primary income and expenditure.
  - The budget for the Project Management Unit amounting to **R7 million** funded from MIG is aligned as an operating budget instead of the capital expenditure.

### FINANCIAL PERFORMANCE OVERVIEW FOR THE QUARTER ENDING 30 SEPTEMBER 2018

## 10. IMPLICATIONS

### FINANCIAL IMPLICATIONS

The unspent balance on the capital income is ring-fenced and will be spent as per invoices received.

The increase in total outstanding creditors will negatively affect the financial position of the municipality as the municipality is still not in a position to comply with Section 65 of the MFMA No.56 of 2003. The non-payment of current creditors will also result in an increase in fruitless and wasteful expenditures due to interests and penalties charged on late payments.

The increase in the debt book indicates low payments in municipal accounts from consumers though statements are being issued monthly.

### STAFF IMPLICATIONS

The total number of employees including councillors were **1 419** by the **1<sup>st</sup> quarter ending 30 September 2018**.

## **Revenue by source material variances - Page 6 of the report**

The total operating revenue by the end of the **1<sup>st</sup> quarter** was at **R382.6 million** which was **R43.6 million** less than the anticipated **R426.3 million** due to the following:

- **Net rates & taxes** – the rates and taxes bill is high due to the annual charge on all National Public Works properties which are charged once in July.
- **Electricity** –the outcomes by the end of the **1<sup>st</sup> quarter** were **R28.7** below the target due to high tampering of meters, illegal connections, and faulty meters and meters that need to be installed and or replaced.
- **Water revenue** - not material
- **Sewerage and Refuse revenue** – these services were **12%** and **20%** less than the target. The service delivery of refuse service needs to be improved in order to enhance revenue. This is currently a challenge to the municipality due to fleet shortage
- **Rental of facilities** – the collection from this income depends on the need by the community.
- **Interests on investments and call account** – the outcomes are mostly influenced by the cash flow of the municipality. The unspent grants are now ring-fenced so interest is earned monthly.
- **Interest on outstanding debtors** – consumers were not charged the interests because the billing was done late due to the mSCOA implementation processes.
- **Fines and penalties** – the recorded transactions are the actual fines collected. The value of the issued traffic fines will be recorded by the end of the financial year.
- **Transfers recognised operational grants** – **R224.4 million** equitable share was received as allocated on the Treasury schedule of transfers.
- **Other revenue** – the collection from this category of income depends on the need by the community.

## **Expenditure by type material variances – Page 6 of the report.**

The total operating expenditure by the end of the **1<sup>st</sup> quarter** amounted to **R362 million** which was **R111.7 million** less than the anticipated **R473.8 million** due to the following:

- **Employee related costs and remuneration of councillors** – are more than the target due to overtimes.
- **Debt impairment and assets depreciation** – the outcomes for these items were at **0%** of the budget because they are calculated and recorded during the preparation of the financial statements.
- **Interest on loan** – only the interest provision was recorded on the general ledger.
- **Bulk purchases** – high electricity consumption resulting from illegal connections and new developments lead to the high Eskom bill.
- **Repairs, Maintenance and Contracted services** – this expenditure is influenced by the cash flow and the fact that some invoices were not captured. This results from late submission of invoices.
- **Transfers and subsidies paid** – transactions will be recorded after the invoices are received from the Entity.

## 2.6. SUMMARY OF THE STAFF BENEFITS (PARENT MUNICIPALITY)

**Note:** Based on the table below, the total budget has changed from the approved budget due to the alignment of items as per mSCOA requirements.

**The following changes must be noted:**

- The skills development levy amounting to **R3million** is now allocated as an operational cost and the post-retirement benefit amounting to **R1.4 million** is now included on the employee costs. The **R14 million** budget for provident fund is added to pension fund.

The actual movements by the end of the **1<sup>st</sup> quarter** were targeted to be at **25%** of the budget. If the percentage is more than **25%** of the budget, it indicates that there is a possibility of overspending of the budget on that line item by the end of the year. The overall total staff benefits were at **26%** of the budget by the end of **September 2018**.

- The movements on the telephone allowances relate to salaries and will be re-allocated to the relevant line item with a journal.
